REMARKS

By the foregoing amendments, Applicants have amended the claims to delete the phrase "characterized in that" and re-word the claims in accordance with preferred U.S. patent claim language. Claims 4-7 have also been amended to delete the multiple dependency and reduce the filing fee.

Applicants retain all rights to the subject matter covered by the cancelled multiple dependent claims by making these claims directly dependent on a single claim. The subject matter now not included in these claims may be reintroduced as multiple dependent claims or as separate independent or dependent claims in the present application or in a continuation and/or divisional application.

Respectfully submitted,
